AURORA EMERGENCY POWER SUPPLY PLUG-IN

DESCRIPTION

The Aurora Emergency Power Supply Plug-in provides emergency power supply to the connected fixture(s). It allows the connected fixture(s) to operate at 100% power output for a period of up to 180 minutes. It can mounted individually or simply in line with Aurora luminaires. The plug-in comes with an automatic self-test function, which will test the battery 3x per year.

SPECIFICATIONS

Product Code	BY-PLUGIN-EPS4
Product Description	Aurora Emergency Power Supply Plug-in 4AH
Colour	Black

Product Code	BY-PLUGIN-EPS6
Product Description	Aurora Emergency Power Supply Plug-in 6AH
Colour	Black

TECHNICAL SPECIFICATIONS

Input Voltage	AC90-265V
Frequency	50Hz
Output Voltage	DC220V
Operating Temperature	-15°C ~ 60°C
Charging Time	24H
Battery Type	11.1V/Li-ion
Capacity	Fixtures < 60W
Emergency Power Supply	> 180min
IP Rating	IP20
Housing Material	Aluminium
Product Warranty	2 Years
